OBJECTIVE _____

Experienced web developer with over eight years of experience in developing and maintaining websites and web platforms. Proficient in design, coding, debugging, and testing of websites and applications. Demonstrated capability to excel in fast-paced, demanding environments, with a strong ability for troubleshooting and problem-solving.

EXPERIENCE _____

Dealer Inspire   February 2020 – March 2024
Software Engineer 1

In my role as a Software Engineer 1, I was responsible for developing, testing, and maintaining our web platform.

- Implemented new features according to specifications and project requirements.
- Identified and fixed bugs or issues that arose on the web platform.
- Participated in code reviews to provide feedback on code quality and get opportunities to improve code.

Dealer Inspire   July 2017 – February 2020
Support Developer

In my role as a Support Developer, I handled user support requests where I maintained and debugged issues that came across our web platform.

- Identified and resolved web platform issues reported by users.
- Assisted users with technical inquiries, guiding them using the web platform.
- Collaborated with other team members to address issues and enhance the quality of the platform.

LLT Group
August 2015 – July 2017

Frontend Developer

In my role as a Frontend Developer, I developed and maintained custom websites built with WordPress.

- Wrote clean and maintainable code with HTML, CSS (SCSS), JavaScript, and PHP to create responsive websites.
- Ensured that frontend code worked seamlessly across different web browsers and devices.
- Worked closely with designers and project managers to integrate frontend code and meet project requirements.
